<b>3D Design for Kids*</b> Dream It, Build It: Apps for Kids inspires young thinkers to turn their wildest creations into reality. This STEAM class will teach young creators the fundamentals of the design process in four areas: Capture It – Capture ideas and start a design story using pictures, text and draw tools. Shape It – Shape ideas into 3D creations of any form. Create 3D shapes with intuitive and easy-to-use modeling tools. Style It – Using color, stickers, and backgrounds, personalize the Shape It 3D model. Print It – Print the creation in 2D and 3D (Cube Print and 3D Printer) to bring the 3D shape to life. Check out the Apps for Kids at <a href="http://www.swappsforkids.com">www.swappsforkids.com</a> This class will be taught by GH parent Michael Steeves, 3D Computer Aided Design Expert and technical manager at SolidWorks Corp. <b>Class limit 18.</b>	<b>Grades 3 – 5</b>	<b>Fridays to 3:30 PM</b>
<b>Michael Steeves, GH parent</b>	<b>Computer Lab</b>	<b>Fridays: \$101/session (10 classes)</b>
<b>Art Wizards – Everyone Can Draw!</b> In Art Wizards, kids learn to draw the things that kids find exciting. The most important part of learning to draw is learning to see. That’s where we start. We give them all the information they need to be successful, but not so much that we stifle their imagination or limit their opportunities. They learn that a problem can have more than one solution, that small changes can have a big effect, and that there is more than one way to look at the world around them. With consistent and ongoing practice throughout the school year, our students are amazed at the progress they make. Projects include fish, birds and animals of all kinds, people, landscapes, still life, mythical creatures, movie characters and cartoons. We show them how to break down a scene or character so it comes out looking like what they intended. We show them how easy it can be when they know how to use chalk and oil pastels, when it’s better to use colored pencils and where markers and watercolor fit in. It’s easy! It’s exciting! It’s rewarding! <b>Class limit 16.</b>	<b>Grades K - 5</b>	<b>Fridays to 3:30 PM</b>

<p><b>Jr. Robotics with LEGO® SPIKE PRIME</b></p> <p>Be the first to experiment and build with the brand-new SPIKE robotics system! New, easy-to-use pieces and electronics open up a world of creative possibilities to Lego beginners and veterans alike. Program your robots using Scratch-based drag-and-drop coding on a tablet, while learning about sensors and motors. Our SPIKE class combines Lego Education's built-in curriculum with BEAM creative class challenges. Invent your own autonomous rovers, bumper bots, and even a sassy dancing robot - The possibilities are endless! Students will begin each day with a lesson and new concepts to add to their creative toolbox. They will then apply that knowledge in a creative way to construct custom robots with a team and meet each day's challenge. <b>Class limit 14.</b></p> <p><b><u>*Please do not enroll this class if your child attends Aftercare at the SP site unless they can be picked up at GH after class ends.</u></b></p>	<p><b>Grades K – 2</b></p>	<p><b>Tuesdays to 3:30 PM*</b></p>

<b>Magic:The Gathering Club</b>	<b>Grades 4 – 5</b>	<b>Tuesdays to 3:30 PM</b>
<p>Calling all Spellslingers! This is an opportunity for MTG enthusiasts to come together whether you are new to the game or an expert. There will be an overview of rules and coaching of new players by their peers. Learn to assess cards, what makes a deck and play strategies. We will start Standard Format and see where that takes us. Every club member will start out with a new deck that is theirs to keep. There will be an emphasis on fair play and inclusion. Tuition includes a \$25 supply fee to provide each student with starter deck of Magic cards. <b>Class limit 20.</b>  <i>NOTE: Initially we ask that participants not bring their own Magic decks. After all club members are up to speed we may decide to allow outside decks for open dueling, but we are not responsible for outside decks or cards. We will do our best to make sure everyone keeps track of their things.</i></p>

<p><b>NEW! Minecraft Server Modding</b></p> <p>Calling all Minecrafters! Building Minecraft mods is a great way to learn programming, harness creativity, and enhance problem-solving skills while making your favorite game even better. Each student will get to run their own Minecraft server where they can customize the game with their own world maps and features. Students will design custom textures, build amazing structures, give their players new abilities, and depending on experience even create their own mini-games all while learning Linux and programming. <b>Class limit 16.</b></p> <p><a href="#">Coding with Kids</a> staff</p>	<p><b>Grades 3-5</b></p> <p><b>Computer Lab</b></p>	<p><b>Thursday to 3:30 PM</b></p> <p><b>\$242/session (10 classes)</b></p>
<p><b>Piano-Keyboard Club</b></p> <p>Kids will have the opportunity to learn to play their favorite songs and music on electric keyboards. Radio hits, movie and television themes are made so easy, that our participants will be playing them after the very first class! The club is a combination of keyboard piano lessons and a music learning workshop, which uses a clever visual method to teach the basics of music reading and piano playing. We've developed lots of learning games and activities designed to teach kids basic music reading skills and playing techniques, in ways that are fun, engaging, and stimulating. We want our students to stay motivated and continue to want to learn to play music, whether they like Bruno Mars or Beethoven. This session is for both brand new students AND returning and advanced students. <b>Class limit 16. <i>No class 3/30.</i></b></p> <p>Dinah Brein, <a href="#">Musical Minds</a></p>	<p><b>Grades K – 5</b></p> <p><b>Music Room</b></p>	<p><b>Mondays to 3:30 PM</b></p> <p><b>Mondays: \$201/session (8 classes)</b></p>
<p><b>Puzzle Club</b></p> <p>Join Ms. Grasel after school for a fun-filled hour doing puzzles! A wide variety of puzzles (ranging from 24 to 500 pieces) will be available to build, and students can save their work from week to week. Students can chart their progress over the session and take on increasingly challenging puzzles. This is perfect after school activity for those cold winter days! <b>Class limit 15.</b></p> <p>Elizabeth Grasel, GH staff</p>	<p><b>Grades K – 5</b></p> <p><b>Room 2112</b></p>	<p><b>Thursdays to 3:30 PM</b></p> <p><b>\$75/session (10 classes)</b></p>
<p><b>Robotics with LEGO® MINDSTORMS EV3*</b></p> <p>Unleash the creative powers of the hands-on LEGO® MINDSTORMS EV3 by building robots that can race, dodge walls, and complete obstacle courses! The aim of this course is to have students utilize their critical and creative thinking skills by building robots that they design and program. Students will physically piece together logic with modular building blocks, build circuits, and discover how robotic creations operate in today's world. Although this course heavily uses Mindstorms EV3, students will learn how a variety of robots are built using the latest cutting-edge systems. <b>Class limit 14.</b></p> <p><b>*Please do not enroll in this class if your child attends Aftercare at the SP site unless they can be picked up at GH after class ends.</b></p> <p><a href="#">BEAM Experiences</a> staff</p>	<p><b>Grades 3 – 5</b></p> <p><b>K Commons</b></p>	<p><b>Mondays to <u>4:00 PM</u></b></p> <p><b>\$244/session (9 classes)</b></p>
<p><b>Schmitz Park Nature Program</b></p> <p>Wilderness Awareness School trained naturalist Kevin "Porcupine" O'Malley will lead students into Schmitz Park on an adventure in learning, mindfulness and awareness. While playing in nature (free play &amp; non competitive games) the kids learn about the PNW and most importantly they get to connect with each other and the natural world. Studies show that children need unstructured outside time everyday. Porcupine has been leading adult and family courses in nature for over a decade. He's particularly skillful in guiding children to have experiences that connect them to the Nature that surrounds them and to inspire questions with answers to be found on another day in the woods. <b>NOTE: Students will be escorted from GH to Schmitz Park for this class. Pick-up will be at Schmitz Park field. Class limit 10.</b></p> <p><b>*Please do not enroll in this class is your child attends Aftercare at the GH site unless they can be picked up at SP after class ends.</b></p> <p>Kevin O'Malley, <a href="#">South Sound Nature School</a></p>	<p><b>Grades K – 5</b></p> <p><b>Schmitz Park (pick-up on playground)</b></p>	<p><b>Mondays to <u>4:30 PM</u></b></p> <p><b>\$182/session (9 classes)</b></p>

## Genesee Hill Enrichment – Spring 2020 Class Descriptions

<b>School of Rock</b>	<b>Grades K – 1</b>	<b>Tuesdays to 3:30 PM</b>
<p>School of Rock builds a exciting learning experience by employing strong teamwork and cooperative learning. We will explore fun games and activities that teach basic musical skills such as rhythm and pitch recognition. Much research and evidence has been documented citing the benefits of music education during a child's early years to help them better develop skill sets in areas such as literacy, motor skills, and coordination. We will also get to study and try out many different instruments. Finally, all of our activities are rooted in classic rock and popular music that is enjoyable for both children and their parents. <b>Class limit 10.</b></p> <p><i>*NOTE: A parent volunteer is needed to help out in class in exchange for priority enrollment and a 50% tuition discount for your child. Please contact the Enrichment Coordinator prior to enrollment.*</i></p>

<p><b>Vocal Performance</b></p> <p>Mode Music presents our very own pop choir! In the tradition of school choirs, Mode’s Vocal Performance class gives students the choir experience with a popular music twist. Using popular music both new and old, students will learn breathing, melody, harmony and blending as well as song form in several different styles. This class is for both new and returning students. A demonstration of learned material will take place the last day of class during the last 30 minutes. <b>Class limit 15.</b></p> <p><i>*Please do not enroll this class if your child attends Aftercare at the SP site unless they can be picked up at GH after class ends at 4 PM.</i></p>	<p><b>Grades 2 – 5</b></p>	<p><b>Fridays to <u>4:00 PM*</u></b></p>

<p><b>Yoga &amp; Mindfulness</b></p> <p>Certified Yoga teacher and Genesee Hill parent Robin Lutton returns with her popular yoga and mindfulness class (inspired by Little Flower Yoga for Kids). Classes are based on the five elements: Connect (with self, others, and environment), Breathe, Move, Focus, and Relax. Students will explore their thoughts, breath, and bodies in a fun, safe, and engaging environment that in time will provide them with the tools for lifelong wellness. <i>No class 3/30.</i></p> <p><b>Class limit 12.</b></p>	<p><b>Grades 3 – 5</b></p>	<p><b>Mondays to 3:30 PM</b></p>
